

COMUNE DI BASELGA DI PINÉ

Provincia di Trento

Prot. n. 14671

Baselga di Piné, 01 december 2025

Oggetto: Municipality of Baselga di Piné Autonomous Province of Trento, Italy: INVITATION TO CHOOSE THE PATH OF LISTENING AND DIALOGUE TO FOSTER WORLD PEACE

Distinguished President,

Your position allows you to make a decisive contribution toward reducing the conflicts currently afflicting the world. We turn to you with the hope of building, together, a world of peace.

Global civil society, beginning with the children in our schools, is clamoring for peace. We can no longer bear to witness death and destruction in the numerous active war zones today. We refuse to remain passive bystanders to such horrors and claim the right to hope for a peaceful future.

For our part, we are committed daily within our communities to adopting initiatives and behaviors aimed at fostering harmony, convinced that the path to peace must also start from the bottom up. However, intervention from the highest levels is necessary.

Therefore, we formally request that you:

- Contribute to putting an end to the massacres currently taking place across the world, moving beyond the logic of war to lay the foundations for a stable future.
- Take action within the appropriate international forums to achieve, as soon as possible, the full recognition of the States of Israel and Palestine by the international community.
- Promote dialogue between conflicting states and act as an active mediator to obtain an immediate "ceasefire" wherever armed clashes are occurring.
- Prioritize diplomacy, working without external influence to prevent further military escalation, with the sole objective of bringing about peace.

We trust in your commitment and sensitivity regarding the resolution of these urgent matters.

From the Community of Baselga di Piné, with faith and hope, we send you a greeting of peace.

- The Mayor of Baselga di Piné -
Alessandro Santuari
